

Restaurant NetCents

Daily Menu Changes. Affordable Web Presence

Now Restaurants can have an affordable online presence with the flexibility to change menu selection every day. Restaurant NetCents gives managers the ability to modify daily specials, menu selections, and offer discounts/coupons. NetCents manages all the technical aspects for you.

Restaurant manager faxes menu changes and within 24 hours menu updates are posted live on your website. NetCents is like having your own technology staff without the expense. For tech savvy managers, managing or editing your menu is accessible from anywhere, anytime. NetCents makes the best sense for Restaurants seeking an online competitive advantage.
