We came into existence in the market, in the year 2014 with a name of Abhyudaya Marketing Solutions. We are Sole Proprietorship based company that aims to manufacture and supply a large assortment of Cable Tray, Cable Tray Accessories, Cable Raceway, Raceway Junction Box, Cable Trunking, Metal Gratings & many more. We are fulfilling demands of customers with highly sturdy, quality approved and effective array of products. Our products are manufactured from superior quality raw material that we source from reliable vendors of the market. The products offered by us are easy to use and available as per the industry standards. Our products are manufactured by our professionals and engineers as per the quality parameters and using latest techniques. Besides these, the offered products are widely known for their effective usage, accurate dimensions, robust construction and many more.

Located at Hyderabad (Telangana, India), we have developed a modern infrastructure that is carefully handled by our team. Our team works in cooperation with each other to fulfill the requirements of customers. They manufacture products as per the specifications provided by the customers. We have large warehouse where products are managed in proper manner. The products are developed by our team within the committed time frame and by following all the quality standards of our company.

The business processing of our company is done under the guidance of G. Mahesh Reddy. His years of experience and expertise in domain enable us to get a support of large number of customers. Our major strength is our team who works using modern techniques, quality material and many others. We are proud to get such diligent and trustworthy team members who work to achieve the goal of the company irrespective of their individual goal.

Our Aim

The main aim of our company is to set a strong foothold in the market by providing a quality tested products to the customers. The position we are enjoying is the result of skills of our team and support of our vendors who provide us quality material. The growth of our company in short span of time is possible due to the protocols of our company on which team works efficiently. We never compromise with the quality of our products as our main motive is to provide complete customer's satisfaction by our best quality.

Our Infrastructure

We are backed by state of art infrastructure, which is well equipped with hi-tech machines, tools and other equipment. These machines and equipment are used for manufacturing, packaging and many more purposes. The infrastructure of our company is well managed by our team of professionals, quality controllers, experts and many more. Due to the assistance of sound production unit, we are able to provide highly durable and quality approved products to the customers.

CABLE TRAY

Providing you the best range of Cable Tray such as Bolted Rung Cable Tray, FRP Cable Tray, Ladder Cable Tray, Electrical Cable Tray, Fiber Reinforced Plastic Cable Tray, Solid Bottom Cable Tray and many more items with effective & timely delivery.

FRP Cable Tray

Owing to the changing requirements of customers, we are engaged in offering a large range of FRP Cable Tray. This product is highly demanded in the market for its usage in structural, corrosive and many more environments. The product offered by us is available as per the quality standards and made from best quality material. Besides these, we offer product to the patrons at industry leading prices.

Features:

Strong structure | Easy to install | Effective usage

Specifications:

- FRP cable trays are corrosion resistant to basic environment, salt water etc. These cable trays are also resistant to electrolytic corrosion due to contact of two metals in humid environment. This unique property contributes to reduce the life cycle costs of cable trays
- Strength to weight ratio of FRP is very high compared to conventional material
- FRP cable trays are having excellent thermal insulation 1000 times less heat conductor than aluminum and electrical insulation properties ~6kv/mm hence no spark risks due to contact with other material
- An additive is mixed with the raw material, which enhances its property by making it resistant to ultra violet light

Ladder Cable Tray

Having years of experience and skills in domain, we are engaged in offering a large range of Ladder Cable Tray. The product we offer to the customers is used in electrical wiring of buildings and many more places. This product is available with us as per the quality standards and known for its long lasting life. Besides these, we offer product to the patrons at affordable rates and in various specifications.

Features:

Sturdy | Different sizes | Rust free

Specifications:

- Standard Length- 2500 mm
- Height- 40 mm, 50 mm, 75 mm and 100 mm
- Width- 100 mm, 150 mm, 300 mm, 450 mm, 600 mm, 750 mm and 1000 mm
- Finish- Pre-Galvanised as per IS-277, Powder Coated, Painted and Hot Dip Galvanised as per IS-2629
- Accessories- horizontal and vertical bends, tee, crosses and reducer

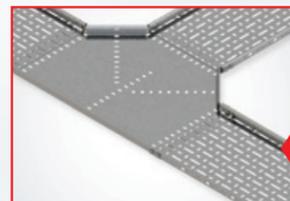

Bolted Rung Cable Tray

As per the industry standards, we are engaged in offering a comprehensive range of Bolted Rung Cable Tray. The product of our company is highly recommended amongst the customers for its maximum strength and long lasting life. Our offered product is used in commercial, industrial and many more application areas for fitting purpose. Moreover, customers like our product for its high grade quality.

Features:

Accurate dimensions | Effective usage | Various specifications

Electrical Cable Tray

We are reckoned amongst trusted and leading companies for offering a wide range of Electrical Cable Tray. This product is available with us in various specifications and quality approved. The product of our company is used for power distributional and communication. Moreover, we provide product to the customers as per their needs and after testing them on various parameters to ensure its correctness.

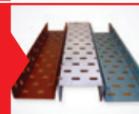

Features:

Accurate dimensions | Easy to fit | Sturdy

Solid Bottom Cable Tray

Painted Cable Tray

Fiber Reinforced Plastic Cable Tray

GI Trunking Cable Tray

Powder Coated Cable Tray

METAL GRATINGS

Leading Manufacturer and Supplier of Metal Gratings such as Metal Floor Gratings, Galvanized Steel Gratings, Stainless Steel Gratings, Mild Steel Gratings, Press Locked Gratings and Vehicular Gratings from Hyderabad.

Galvanized Steel Gratings

Being pioneers of the industry, we are engaged in offering a large range of Galvanized Steel Gratings to the customers. The products offered by us are made from quality steel that we source from leading vendors of the market. Our products are used in flooring, decking and many more places. Moreover, customers appreciate us for offering quality tested and highly durable products.

Features:

Sturdy | Easy to install | Accurate dimensions

Stainless Steel Gratings

Our name is enlisted amongst trusted and renowned companies for offering a large array of Stainless Steel Gratings. The products of our company are quality approved and available in various sizes. Made from superior quality stainless steel, our products are known for their durability. Besides these, we offer products to the customers as per their specifications and as per the industry standards.

Features:

Sturdy | Rust free | Accurate dimensions

Mild Steel Gratings

In order to fulfill the requirements of our valuable clients we are offering a quality range of Mild Steel Gratings. These are manufactured using high quality mild steel procured from reliable vendors of the industry. These are highly demanded in the market for their premium quality and long service life. These Mild Steel Gratings are available at pocket friendly price range.

Features:

Sturdy | Rust free | High strength

Metal Floor Gratings

Quality is the hallmark of our company, in order to maintain quality standards we are engaged in offering a large range of Metal Floor Gratings. These products are available with us as per the quality standards and known for their high grade quality. The products we offer to the patrons are used for floor and many more purposes. Besides these, customers can avail various specifications of products from us.

Features:

Various shapes | Effective usage | Durable

Specifications:

- An open grid assembly of metal bars, in which the bearing bars, running in one direction, are spaced by rigid attachment to cross bars running perpendicular to them or by bent connection bars extending in the direction of the grating span
- Bearing Bars- Load carrying bar made from steel strip, or slit sheet or from rolled or extruded aluminium and extending in the direction of the grating span
- Cross Bars- The connecting bars, made from steel strip, slit sheet or rolled bars, or from rolled or rolled or extruded aluminium, which extend across the bearing bars, usually perpendicular to them. They may be bent into a corrugated or sinuous pattern, where they intersect the bearing bars which are welded to them

Press Locked Gratings

Vehicular Gratings

EARTHING ELECTRODES

Creating a niche of Earthing Electrodes such as GI Pipe Earthing Electrodes, Chemical Earthing Electrodes, Gel Earthing Electrodes and Copper Earthing Electrode at its best, with utmost quality.

GI Pipe Earthing Electrodes

To match up the growing needs of customers, we are engaged in offering a large range of GI Pipe Earthing Electrodes. The electrodes we offer provides the physical connection to the earth and known in the market as the instrument used to dissipate current into it to safeguard facilities. These electrodes are fabricated by us using finest grade metal alloys, natural compositions and proper galvanization. This product has high load carrying capacity which makes these electrodes most sought after. These corrosion proof and environment friendly electrodes provided by us are perfect for grounding requirements and can be customized as per demands of the customers.

Features:

Easy to install | Sturdy | Various sizes

Gel Earthing Electrodes

We are reckoned amongst trusted and leading companies for providing a large range of Gel Earthing Electrodes to the patrons. The products offered by us are used as grounding electrodes, for CNC and many more applications. These products are available with us as per the industry standards and in various specifications. Besides these, customers can avail products from us for effective earthing.

Features:

Easy to use | Effective usage | Various sizes

Copper Earthing Electrode

As per the industry standards, we are engaged in offering a comprehensive range of Bolted Rung Cable Tray. The product of our company is highly recommended amongst the customers for its maximum strength and long lasting life. Our offered product is used in commercial, industrial and many more application areas for fitting purpose. Moreover, customers like our product for its high grade quality.

Features:

Accurate dimensions | Effective usage | Various specifications

Chemical Earthing Electrodes

We are counted amongst leading and prominent companies for offering a large range of Chemical Earthing Electrodes to the customers. These products are highly acclaimed amongst the customers for their effectiveness. Our offered products are used in commercial, residential and many more application areas. Moreover, we offer products to the patrons as per their needs and at industry leading prices.

Features:

Durable | High tensile strength | Accurate dimensions

GI EARTHING STRIP

Manufacturer & Supplier of GI Earthing Strip. Our product range also comprises of Cable Tray, Cable Tray Accessories and Cable Raceway.

GI Earthing Strip

Owing to the varying needs of customers, we are engaged in providing a wide range of GI Earthing Strip. This product is available with us as per the need of the application and used in electrical systems for insulation and many more uses. The product we offer to the patrons is quality tested and known for its long lasting life. Besides these, we provide product to the customers at market leading prices.

Features:

Various sizes | Effective usage | Accurate dimensions
